

Get ready
to **LEARN!**

READ

Reading aloud
builds language and
vocabulary—starting
even before a child
can talk!

DRAW

Scribbling is how
children develop
the skills and
coordination they
need to write
letters and words.

TALK

Talking helps
children build the
vocabulary they
need to become
strong readers.

Singing prepares
children for reading by
helping them to hear
the individual sounds in
words, and to notice
rhyme and rhythm.

SING

When children
play, they practice
language and
problem-solving
skills.
